Help Donald, help Robert, help!

Do you know what that nasty pip-squeek Pope Anderson did now? The Church voted to take Wyman's sister-in-law and sons in as Associate members with full voting privileges. He went to her and told her she could come to Church but could not vote. So her help in the Church is lost.

Now comes the clincher: Dorothy Oler called today to say they are leaving on vacation on Aug. 24!!! Bitching about the last year's program. Seems there was nothing she liked. Too much meat, it should be sliced ahead of time and we should use the money taken up at the table to pay expenses of.
